SECTION 1

Your role at a glance

IN SHORT

Every selected candidate has a pre-employment medical before the Board approves the hire. The medical uses **two signatures**: the **Medical Officer** examines the candidate and records the finding, and the **Central Medical Officer** confirms it. No candidate is medically cleared until the Central Medical Officer signs off — whether the finding is fit or unfit.

MEDICAL OFFICER

- Examine candidates sent for their medical
- Record the findings on the standard form
- Propose Fit or Not fit
- Correct and resubmit anything sent back

CENTRAL MEDICAL OFFICER

- Review every submitted finding
- Approve — singly or in bulk
- Overturn a finding, with a reason
- Send one back to the examining officer, with a note

WHAT STARTS YOUR WORK

Medical Officer: a candidate in **Medical Clearance**. Central Medical Officer: a submission in **Medical Approvals**.

WHO YOU HAND OVER TO

The recruiting side. A confirmed clearance opens the board-approval step of the candidate's onboarding.

Where you fit in the hiring lifecycle

PHASE 1
Manpower Requisition
- Raise the requisition
- Job analysis
- Approval chain
- CHRO / Board (if escalated)

PHASE 2
Sourcing & CV Collection
- CV sources & recruiter
- Role profile & job posting
- CVs arrive from all channels
- AI screening & shortlist

PHASE 3
Assessment & Interviews
- Screening tests
- First interview
- Factory HR Head approval
- Second / final interview

PHASE 4
Selection & Salary
- Panel evaluation
- Salary fixation
- Mark as selected
- Regret letters

PHASE 5
Pre-employment & Onboarding
- Documents & facilities
- **Medical clearance**
- Board approval & offer
- Verification & joining

SECTION 2

Access and signing in

2.1 How you get the role

Both roles are group-wide (all units) and are granted by a super user on Access Control. If medical is your only role, the menu stays focused on your work: the Organogram and Requisitions are hidden, because there is nothing on them for you to act on.

2.2 Signing in

1. **Open the system**
   Go to **https://talenthub.dbl-group.com** in Chrome, Edge or another current browser, on a computer or a phone.
2. **Sign in**
   Enter your DBL **email address** and password, then **Sign in**. Tick **Remember me** on your own device to keep your email filled in; your browser can save the password.
3. **First sign-in or after a reset**
   Your temporary password is your **employee code**. The system then asks you to choose your own password of 6 to 12 characters before you can continue.

- **Forgot your password?** Select **Forgot password?** on the sign-in page. A 6-digit code is emailed to you; it is valid for 10 minutes. Enter it, then set a new password. Every other session is signed out.
- **Locked out?** After 5 wrong passwords the account is locked for 15 minutes. A super user can also reset your password to your employee code.
- **Two-factor authentication** (recommended) is switched on under **Account settings** › **Security** — use an authenticator app or a code sent by email.
- **Sessions** last 24 hours; after that you sign in again. Signing out on one device does not sign you out anywhere else.

> **i** **No role, no sign-in**
> The system lets a person sign in only while they hold at least one role. If you are told your account is not enabled for sign-in, ask Head of Talent Acquisition or a super user to check your access.

2.3 What you will see

My Work **Medical Clearance**
Medical Officer: candidates awaiting an examination, and any sent back.

My Work **Medical Approvals**
Central Medical Officer: findings waiting for confirmation.

Overview **Dashboard**
Awaiting Examination and your other medical work.

System **Notifications**
New candidates, returned findings and decisions.

SECTION 3

How a candidate reaches you

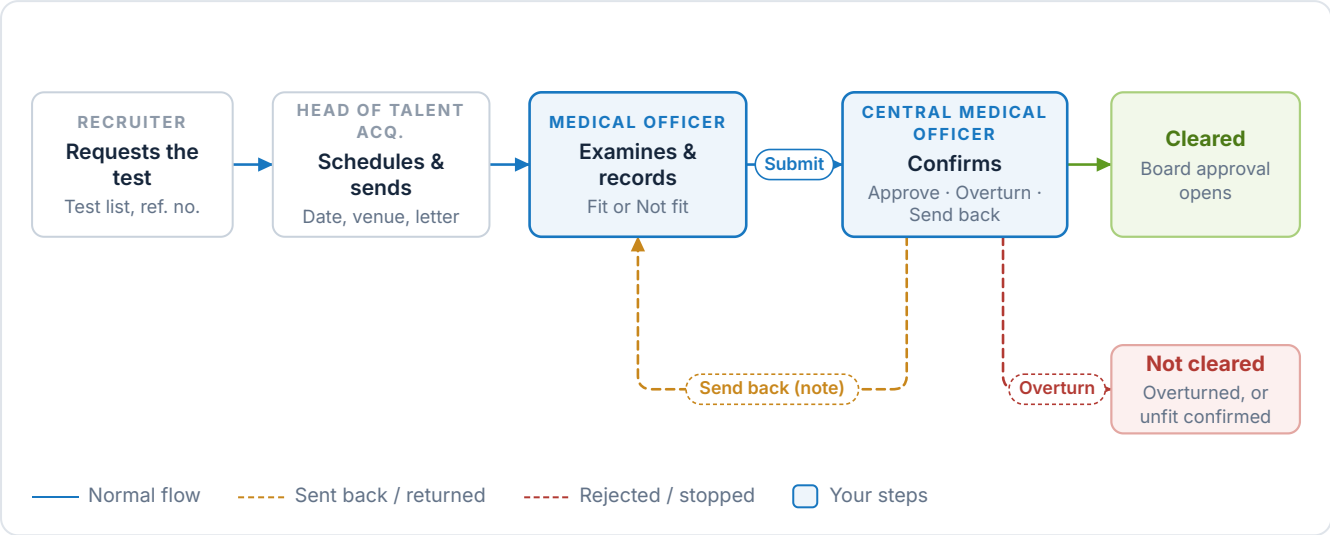

Figure 1. The medical process. To turn a proposed "Not fit" into a clearance, the Central Medical Officer sends it back and the examining officer resubmits — a clearance always carries the examining officer's name.

1. **The recruiter requests the test**

   From the candidate's onboarding page, once their documents and facilities are settled: the test list (below 40, or 40 and above), the salutation and a reference number.

2. **Head of Talent Acquisition schedules it**

   Sets the date, time and venue and emails the **pre-employment medical test letter** to the medical team and the appointment to the candidate — one email per candidate.

3. **The candidate appears in Medical Clearance**

   You are notified ("Medical clearance needed") and the candidate is listed with how long they have waited.

SECTION 4

Medical Officer: recording the examination

1. **Open the queue**

   My Work › **Medical Clearance** shows **Awaiting exam**, **Sent back** and the **Longest wait**. Search by name and open the candidate.

2. **Complete the form**

   The form follows DBL's medical fitness report: date of birth, duty position, date of examination and issue, registration number and consultant; height, weight, pulse and blood pressure; right and left eye, glasses and colour vision (yellow, red, green, blue); right and left ear, speech and extremities; history of past illness; blood group; remarks. The reference number is assigned on save.

3. **Save as you go**

   Save draft keeps whatever is on screen.

4 **Give the finding**

Mark **Fit to Join** as **Fit** or **Not fit**, then **Clear candidate** (every section must be complete) or **Reject**. Your finding goes to the Central Medical Officer for confirmation.

> ! **Examinations done outside the system**
> If the examination took place at an outside clinic and you are typing up a paper slip, use **Checked by hand**. A by-hand result takes effect immediately, by business decision, and is recorded as manual — it never carries the Central Medical Officer's name, so the two kinds are always distinguishable.

A finding sent back by the Central Medical Officer returns to your queue under **Sent back**, marked "Returned by the Central Medical Officer", with their note. Correct or re-test, then submit again. **Print Medical Fitness Report** produces the signed report for the file.

SECTION 5

Central Medical Officer: confirming findings

My Work › **Medical Approvals** lists findings recorded by examining officers, with counts of **Awaiting**, **Proposed fit** and **Proposed unfit**. Filter by Fit or Unfit, search, and open **View Medical Report** on any row.

Your decision	Effect	Note
Approve	Confirms the examining officer's finding as proposed: a Fit finding clears the candidate; a Not fit finding confirms they are not cleared. Tick several and approve them together.	Not needed — the finding states it
Overturn	The candidate is not medically cleared, whatever was proposed.	**Required** — the reason for overturning
Send back	Returns the finding to the examining officer to correct or re-test.	**Required** — what to correct or re-check

> i **Why a clearance cannot be created here**
> To change a proposed "Not fit" into a clearance, send it back with a note; the examining officer resubmits. A clearance should carry the name of the clinician who ran the examination, not be issued by someone who did not.

Once you decide, the recruiting side is notified ("Medical cleared" or otherwise) and the examining officer is told the outcome — or that it was returned.

SECTION 6

Notifications

Everything that needs your attention arrives in three ways. The **bell** at the top right shows a count and a list; a new notification also plays a short sound and appears briefly on screen, and open pages refresh themselves — there is no need to reload. If **Email notifications** is on under **Account settings** › **Notifications**, the same

notification is emailed to you.

Each morning the system also sends a **reminder** to anyone who has a requisition waiting on their approval or interview marks still to submit.

Role	You are told when…
Medical Officer	A candidate needs medical clearance; the Central Medical Officer approved, overturned or returned your finding.
Central Medical Officer	A medical finding is awaiting your approval.

SECTION 7

Questions and answers

Q **A candidate is not in my queue although the test is booked.**

A candidate enters the queue once their onboarding documents are settled and their facilities reviewed. Ask the recruiter to check those steps.

Q **Can I clear a candidate without filling every section?**

Not as a structured finding — every section is needed. If the examination was done on paper elsewhere, use Checked by hand.

Q **Can the Central Medical Officer edit my form?**

No. They approve, overturn with a reason, or send it back to you with a note.

Q **What does the candidate see?**

The candidate receives the appointment from Head of Talent Acquisition. Results are handled inside the system and by HR.

SECTION 8

Quick reference

A one-page summary you can print and keep beside you.

Medical — quick reference

MEDICAL OFFICER

- My Work → **Medical Clearance**
- Complete every section · **Save draft** any time
- Fit to Join: Fit / Not fit → **Clear candidate** or **Reject**

CENTRAL MEDICAL OFFICER

- My Work → **Medical Approvals**
- **Approve** (bulk allowed) · **Overturn** (reason) · **Send back** (note)
- View Medical Report on any row

RULES

- Nobody is cleared until the CMO confirms
- By-hand results are immediate and marked manual
- Clearance opens the board-approval step

BEFORE THE EXAM

- Recruiter requests · Head of Talent Acquisition schedules
- Letter to the medical team; appointment to the candidate
- One email per candidate
