SECTION 1

Your role at a glance

IN SHORT

When the recruiter hands shortlisted candidates to your unit for a first interview, your Factory HR runs it and decides who goes through. In a unit with a Factory HR Head, those finalists come to **you** before the Corporate Recruiter sees them. You approve them for the second interview, return them to Factory HR with a note, or reject them.

Like Factory HR, you can also send CVs collected locally to the recruiter once a job in your unit is posted.

WHAT YOU DO

- Approve first-interview finalists, singly or in bulk
- Return a finalist to Factory HR with a note
- Reject a finalist, with a reason
- Send locally collected CVs to the recruiter

WHAT YOU DO NOT DO

- Run the first interview (Factory HR does)
- Schedule the second interview (the recruiter does)
- See the recruiter's full pipeline

WHAT STARTS YOUR WORK

A notification: "Finalist awaiting your approval".

SECTION 2

Access and signing in

2.1 How you get the role

The Factory HR Head role is granted per unit by a super user on Access Control. A unit without a Factory HR Head simply skips this approval: Factory HR's "Yes" sends the candidate straight to the recruiter.

2.2 Signing in

1. **Open the system**
   Go to **https://talenthub.dbl-group.com** in Chrome, Edge or another current browser, on a computer or a phone.
2. **Sign in**
   Enter your DBL **email address** and password, then **Sign in**. Tick **Remember me** on your own device to keep your email filled in; your browser can save the password.
3. **First sign-in or after a reset**
   Your temporary password is your **employee code**. The system then asks you to choose your own password of 6 to 12 characters before you can continue.

- **Forgot your password?** Select **Forgot password?** on the sign-in page. A 6-digit code is emailed to you; it is valid for 10 minutes. Enter it, then set a new password. Every other session is signed out.
- **Locked out?** After 5 wrong passwords the account is locked for 15 minutes. A super user can also reset your password to your employee code.
- **Two-factor authentication** (recommended) is switched on under **Account settings** › **Security** — use an authenticator app or a code sent by email.
- **Sessions** last 24 hours; after that you sign in again. Signing out on one device does not sign you out anywhere else.

> **i** **No role, no sign-in**
> The system lets a person sign in only while they hold at least one role. If you are told your account is not enabled for sign-in, ask Head of Talent Acquisition or a super user to check your access.

SECTION 3

Approving first-interview finalists

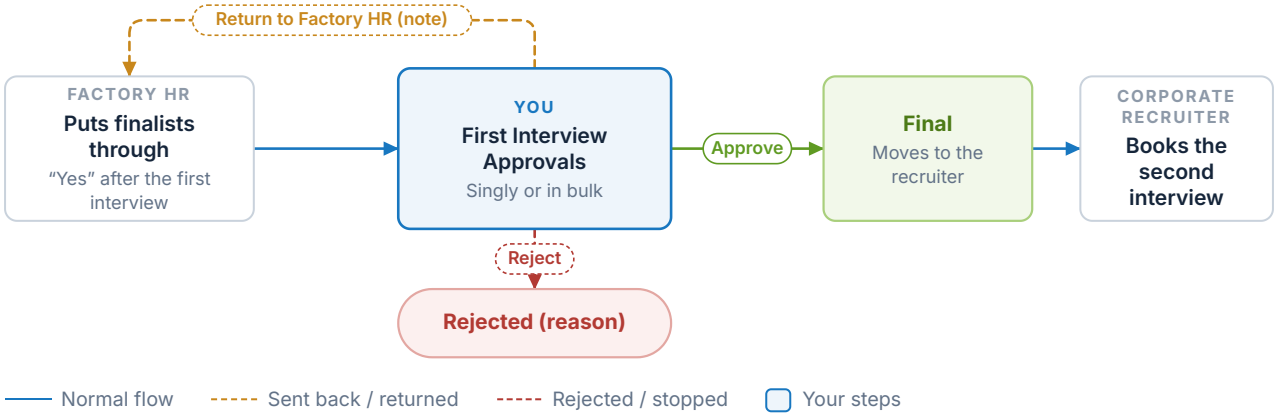

Figure 1. Your decision on each finalist. The recruiter's own first interviews — ones not handed to a factory — never come to you.

3.1 What you see for each candidate

- The candidate, the post, the unit and the requisition, with a link to the **CV**.
- When they were interviewed, the panel's **average score**, each panelist's marks and each panelist's **recommendation** — Select, Reject or Talent Pool.
- Their **present salary** and **expected salary**, where known.

3.2 Deciding

1. **Open the queue**

   Go to **My Work** › **First Interview Approvals**. Search by name, designation, unit or requisition.

2. **Approve**

   Approve on a row ("send for the second interview"), or tick several and select **Approve N**. The candidate moves to Final, the recruiter is told to book the second interview, and Factory HR is informed.

3. **Return**

   Return to Factory HR sends the candidate back with your note — for example, to re-check a mark. Factory HR then resends or rejects. A note is required.

4. **Reject**

   Reject ends the candidate's application at your stage. A reason is required; it is recorded and shown to everyone downstream.

> **While a finalist is with you**
>
> The first interview stays locked: Factory HR cannot give a second verdict and the recruiter cannot take the candidate back until you decide.

SECTION 4

Sending CVs to the recruiter

Once the recruiter publishes a job in your unit, its **Profile & Posting** tab offers you the **Send CVs to the recruiter** panel, with the public job link. Drop one PDF or up to 30, check the names, choose the source (Employee Referral asks for the referring employee) and select **Send CVs**. They land in the recruiter's pipeline as Applied, marked **Factory HR Head · your name**.

SECTION 5

Notifications

Everything that needs your attention arrives in three ways. The **bell** at the top right shows a count and a list; a new notification also plays a short sound and appears briefly on screen, and open pages refresh themselves — there is no need to reload. If **Email notifications** is on under **Account settings** › **Notifications**, the same notification is emailed to you.

Each morning the system also sends a **reminder** to anyone who has a requisition waiting on their approval or interview marks still to submit.

- A finalist is awaiting your approval.
- A candidate you returned has been resent by Factory HR.

SECTION 6

Questions and answers

Q **Can I change a decision after approving?**

No. Once approved, the candidate is with the recruiter for the second interview. Speak to the recruiter if something has come to light.

Q **Why do some first interviews never reach me?**

Only first interviews handed to your unit come to you. Interviews the recruiter runs directly do not.

Q **Can I approve candidates from another unit?**

No. The role is per unit; you see only your unit's finalists.
