ROLE GUIDE 02

02

Factory HR

Job analysis for your unit's requisitions, CVs sent in to the recruiter, and the first interviews handed to you.

WHO THIS IS FOR

HR officers at each unit or factory who hold the Factory HR role.

WHAT YOU DO IN TALENTHUB

1

Write the job analysis

Section B and the detailed JD for every requisition raised in your unit — before any approver sees it.

2

Send CVs to the recruiter

Drop the CVs you collect locally on the posted job; they land in the recruiter's pipeline under your name.

3

Run first interviews

Schedule, hold and decide the first interviews the recruiter hands to you at the factory.

9 Quick reference 16

SECTION 1

1 Your role at a glance

IN SHORT

- Every requisition raised in your unit comes to you first: you write its **job analysis** (section B + the JD). Submitting it starts the approval chain.
- Once the job is posted you **send CVs** you collected locally to the recruiter.
- The recruiter may hand shortlisted candidates to you to run their **first interview** at the factory.

WHAT YOU DO

- Write the job analysis for your unit's requisitions
- Correct section A details where needed
- Send locally collected CVs to the recruiter
- Run first interviews handed to you and decide who goes through

WHAT YOU DO NOT DO

- Approve requisitions — you are not an approval step
- Decide facilities, salaries or offers
- See the recruiter's full candidate pipeline
- Run second or final interviews

WHAT STARTS YOUR WORK

A raiser in your unit sends a requisition for job analysis; a job in your unit is posted; candidates are sent to you for interview.

WHO YOU HAND OVER TO

The approval chain (after job analysis); the Corporate Recruiter (CVs and finalists); your Factory HR Head (finalists, where your unit has one).

Where you fit in the hiring lifecycle

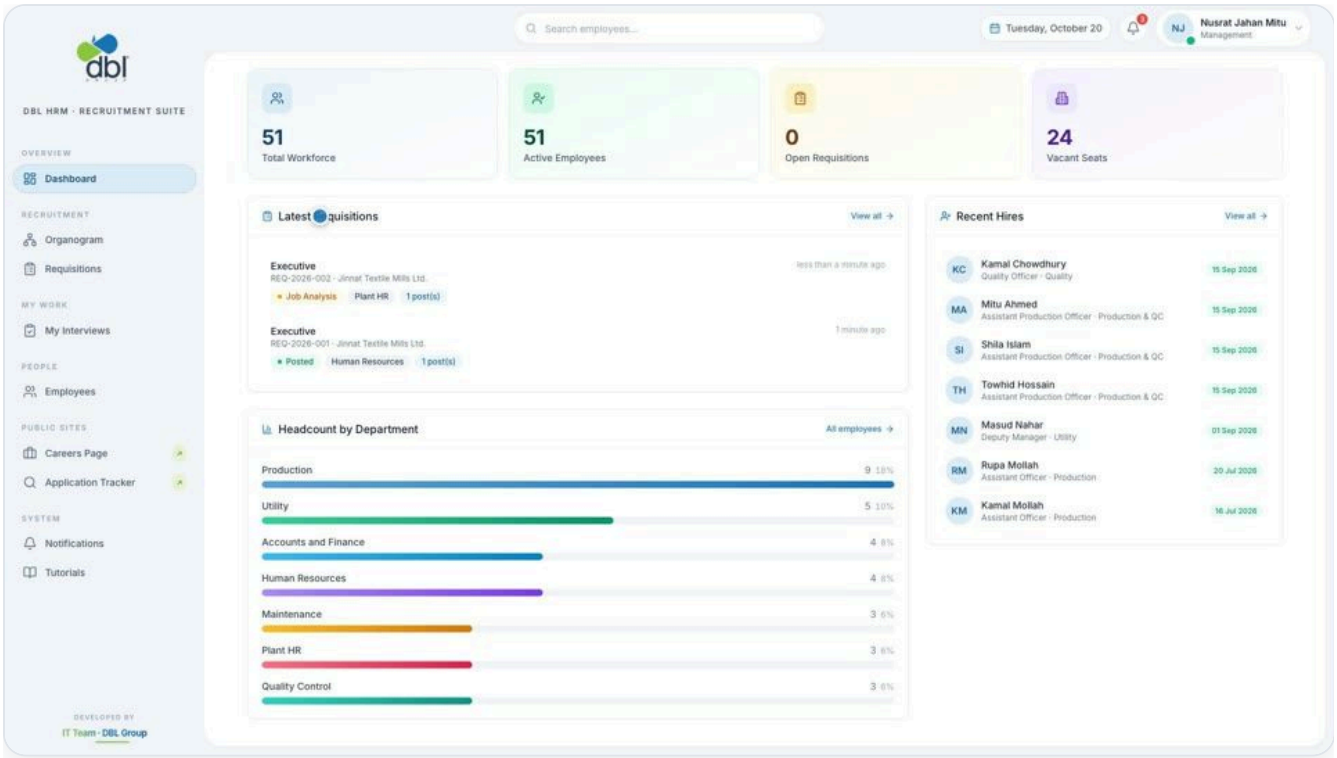

PHASE 1
Manpower Requisition
- Raise the requisition
- **Job analysis**
- Approval chain
- CHRO / Board (if escalated)

PHASE 2
Sourcing & CV Collection
- CV sources & recruiter
- Role profile & job posting
- **CVs arrive from all channels**
- AI screening & shortlist

PHASE 3
Assessment & Interviews
- Screening tests
- **First interview**
- Factory HR Head approval
- Second / final interview

PHASE 4
Selection & Salary
- Panel evaluation
- Salary fixation
- Mark as selected
- Regret letters

PHASE 5
Pre-employment & Onboarding
- Documents & facilities
- Medical clearance
- Board approval & offer
- Verification & joining

1. Requisitions — job analysis
2. Assigned Candidates — first interviews handed to you
3. My Interviews — panels you sit on
4. Your avatar — availability (leave) in its menu

Figure 1. Your Dashboard after signing in: the requisitions waiting in your unit are under **Latest Requisitions**; the menu on the left is where your three jobs live.

SECTION 2

2 Access and signing in

2.1 How you get the role

- Granted **per unit** by a super user on **Configuration** › **Access Control**.
- A unit can have several Factory HR — you all share one queue (the **HR Layering** order only labels people).
- It does not open Unit Configuration or other units.

2.2 Signing in

1. **Open the system**
   Go to **https://talenthub.dbl-group.com** in Chrome, Edge or another current browser, on a computer or a phone.

2 Sign in

Enter your DBL **email address** and password, then **Sign in**. Tick **Remember me** on your own device to keep your email filled in; your browser can save the password.

3 First sign-in or after a reset

Your temporary password is your **employee code**. The system then asks you to choose your own password of 6 to 12 characters before you can continue.

- **Forgot your password?** Select **Forgot password?** on the sign-in page. A 6-digit code is emailed to you; it is valid for 10 minutes. Enter it, then set a new password. Every other session is signed out.
- **Locked out?** After 5 wrong passwords the account is locked for 15 minutes. A super user can also reset your password to your employee code.
- **Two-factor authentication** (recommended) is switched on under **Account settings** › **Security** — use an authenticator app or a code sent by email.
- **Sessions** last 24 hours; after that you sign in again. Signing out on one device does not sign you out anywhere else.

> **No role, no sign-in**
> The system lets a person sign in only while they hold at least one role. If you are told your account is not enabled for sign-in, ask Head of Talent Acquisition or a super user to check your access.

2.3 What you will see

Overview **Dashboard**
Job analyses waiting in your unit and your other open work.

Recruitment **Requisitions**
Your unit's requisitions in job analysis, ones you completed, and posted ones you can send CVs to.

My Work **Assigned Candidates**
Appears while candidates are handed to you for a first interview.

My Work **My Interviews**
Interviews where you sit on the panel and give marks.

Recruitment **Organogram**
Sanctioned, filled and vacant seats.

Avatar menu **Availability**
Set leave so your work passes to colleagues; the dot on your avatar shows on duty / away.

SECTION 3

3 Writing the job analysis

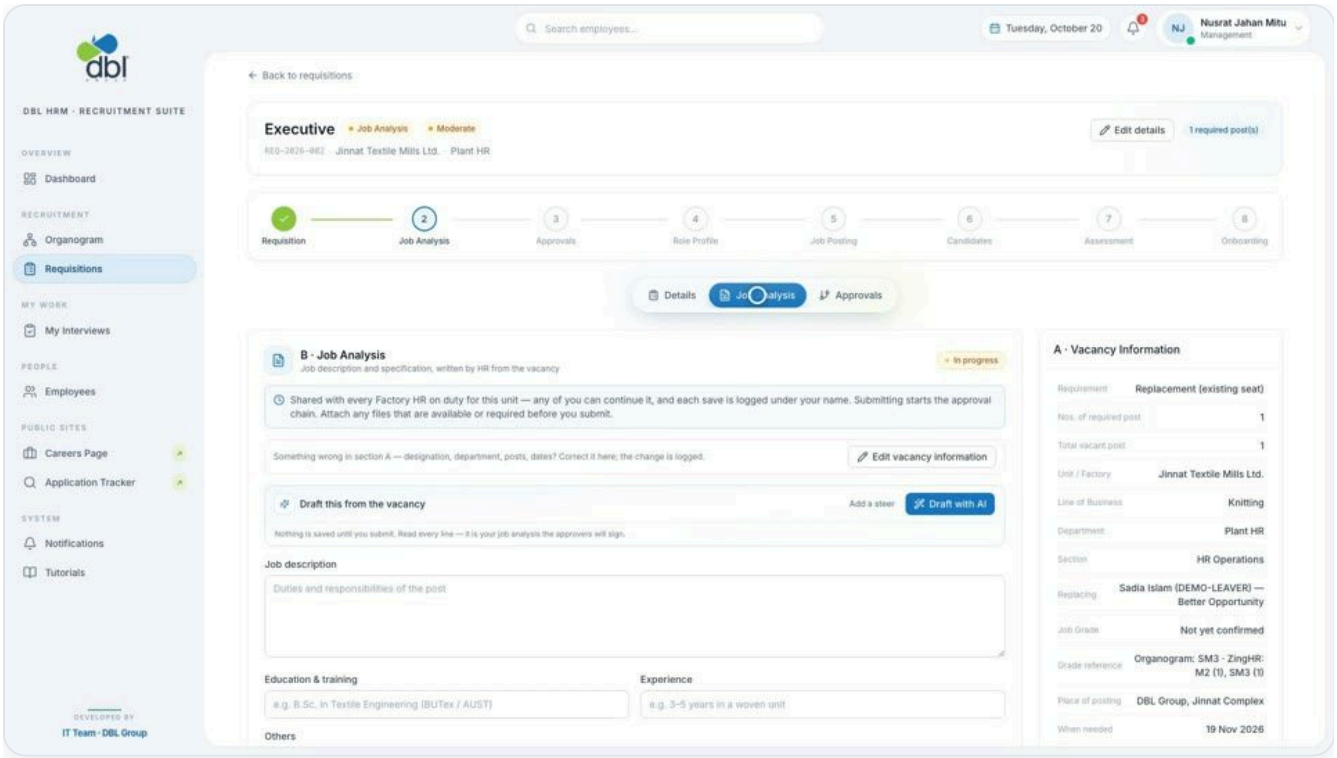

Section B of the requisition: the job description, education, experience and other requirements, with the detailed job description attached.

Figure 1. The job-analysis stage. The status stays **Job Analysis** until you submit, including while a requisition is returned to the raiser.

3.1 A shared queue

- A raised requisition notifies **every on-duty Factory HR** in the unit; any of you may open and continue it.
- Every save is recorded under your name; **Last worked on by** shows who touched it last, so nobody does the same work twice.

1. Edit vacancy information — correct section A
2. Draft with AI / Draft this from the vacancy
3. The four fields of section B
4. Attachments, Save, Return to raiser, Submit for approval

Figure 2. The requisition on its **Job Analysis** tab: section A (the raiser's vacancy) on the right, your section B on the left.

3.2 Step by step

1 Open the requisition

Requisitions → status Job Analysis → the **Job Analysis** tab.

2 Check section A first

Wrong post, numbers or dates? **Edit vacancy information** fixes them; the change is logged, the chain is not rerouted.

3 Draft section B

Draft with AI fills **Job description**, **Education & training**, **Experience** and **Others** from the vacancy. Read and edit — nothing is submitted by itself.

4 Attach the JD

The detailed job description as a PDF. Files can be added only at this stage.

5 Save as you go

Save keeps a draft a colleague can pick up.

6 **Submit**

Submit for approval → status Pending Approval; the first approver on the raiser's chain is notified.

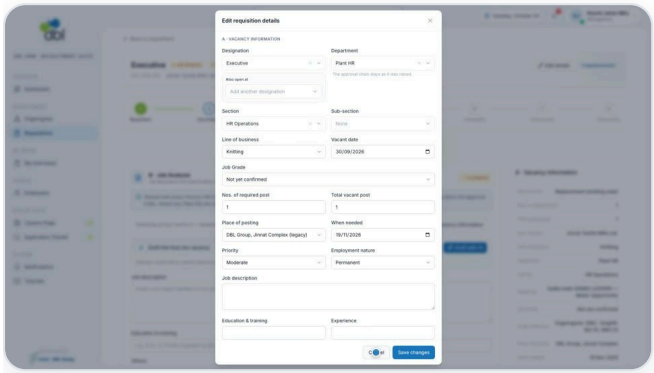

Figure 3. Edit vacancy information — section A corrected by you.

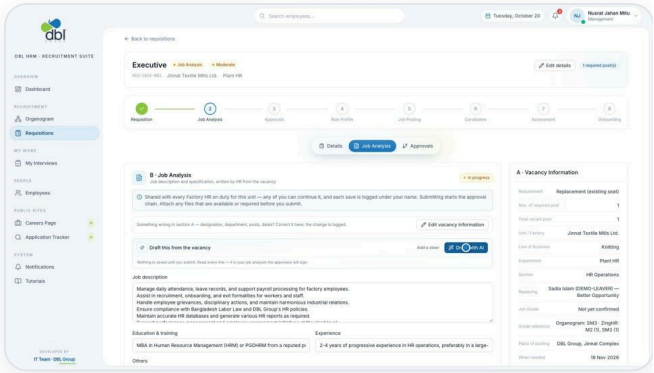

Figure 4. Draft with AI — the four fields drafted for you to edit.

3.3 Returning it to the raiser

- Cannot be analysed as raised? **Return to raiser** → write what is needed → **Send back**.
- It parks with the raiser; **Resend for job analysis** brings it back to your queue, and you are notified.

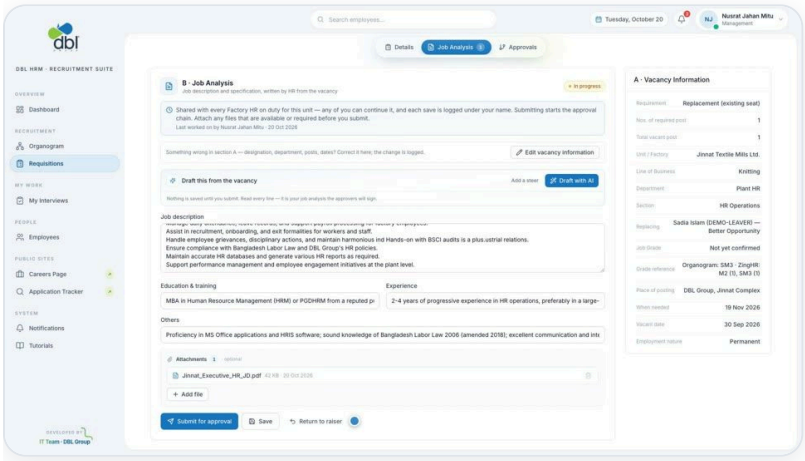

Figure 5. The return dialog: a note is required.

When no Factory HR is available

If your unit has no Factory HR, or everyone is on leave, the job analysis falls back to Head of Talent Acquisition and the Corporate Recruiters. Where a Factory HR is on duty, only they (or a super user) may write it.

SECTION 4

4 Sending CVs to the recruiter

- Once the job is posted, **Profile & Posting** shows **Send CVs to the recruiter**, the public job link, **Share job link** and **Social post**.

1 Open the dialog

Send CVs on the panel.

2 Choose the source

Required — where the CVs came from. **Employee Referral** asks only who referred them.

3 Drop the CVs

One PDF or up to 30; names come from the file names — correct any before sending.

4 Send

Send CVs → they land as Applied marked **Factory HR · your name**; the recruiter is notified.

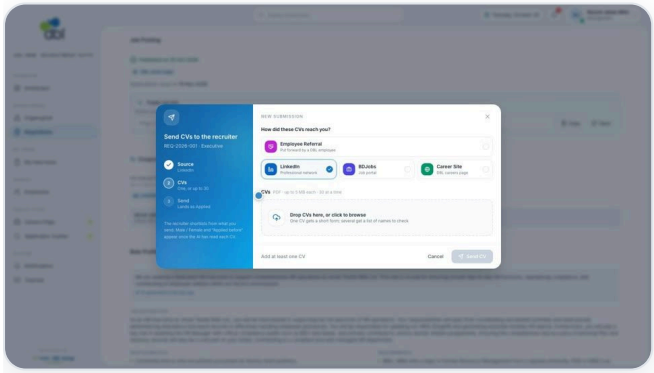

Figure 6. The dialog: source first, then the CVs.

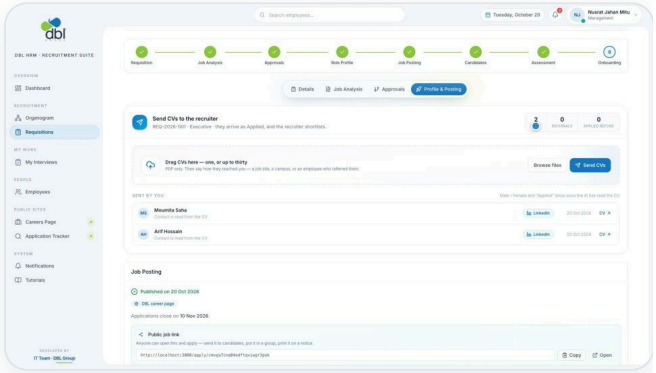

Figure 7. Sent by you — what you sent, and how many times each person applied before.

Every CV is read on arrival

Each CV is read by the system on upload. It fills in a missing email address or phone number and records the candidate's gender; where automatic screening is switched on, it also scores the CV against the role profile for the recruiter.

SECTION 5

5 Running first interviews

Candidates the recruiter hands to you appear under My Work › Assigned Candidates.

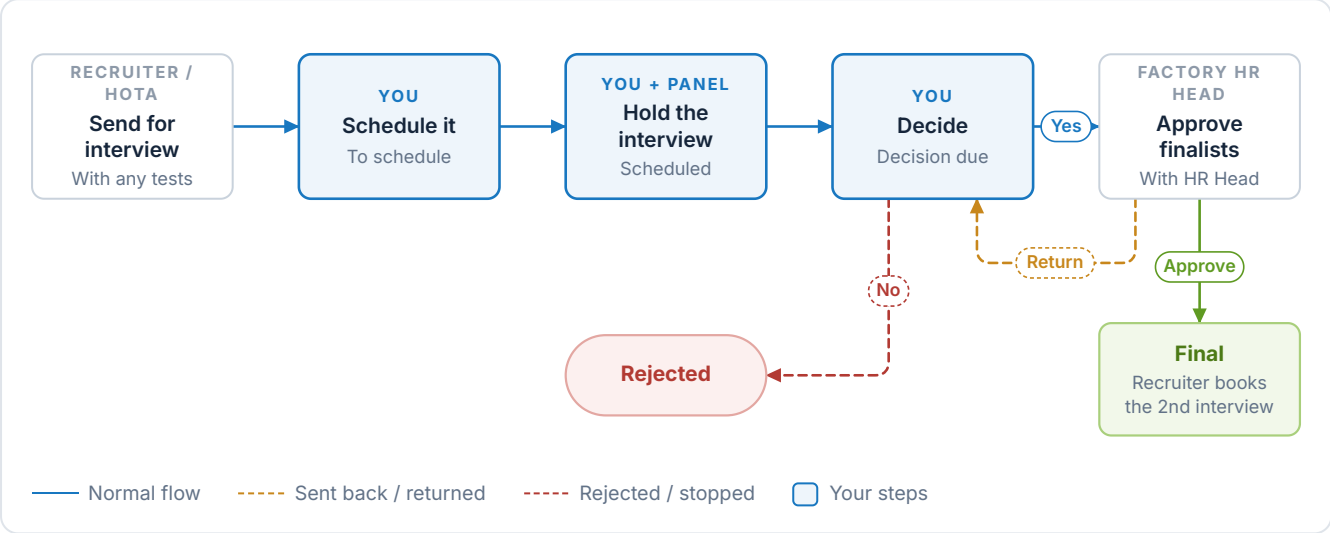

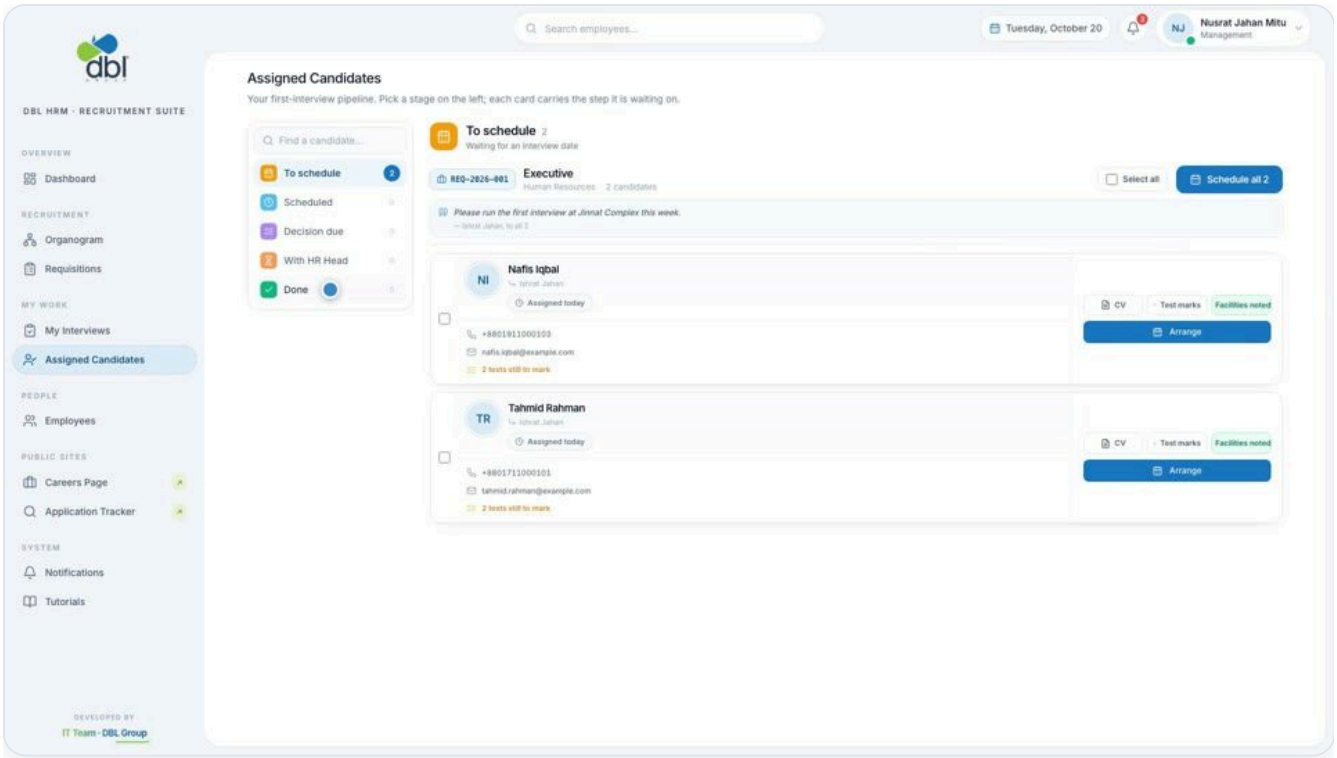

Figure 2. A first interview handed to you; the grey text under each step is its column on the Assigned Candidates board. In a unit without a Factory HR Head, "Yes" moves the candidate straight to **Final**. The Head may also reject.

5.1 How candidates reach you

- The recruiter uses **Send for interview**, naming you → you are notified and **Assigned Candidates** appears in your menu.
- You see those candidates only (CV and profile), with the tests the hand-off asks for and any note.
- While a candidate is with you, the interview is yours — the recruiter watches but cannot change it until you decide.

1 The five stages, with counts

2 Select all → Schedule N selected

3 CV · Test marks · Facilities on each card

Figure 8. Assigned Candidates: pick a stage on the left; each card carries the step it is waiting on.

5.2 The board

Column	What is in it
To schedule	Candidates waiting for an interview date.
Scheduled	Interviews booked. Mark attendance, reschedule, enter test marks.
Decision due	Interviewed — say whether each candidate goes through.
With HR Head	Put through and waiting for your Factory HR Head.
Done	Decided: put through, or not taken forward. Regret letters are sent from here.

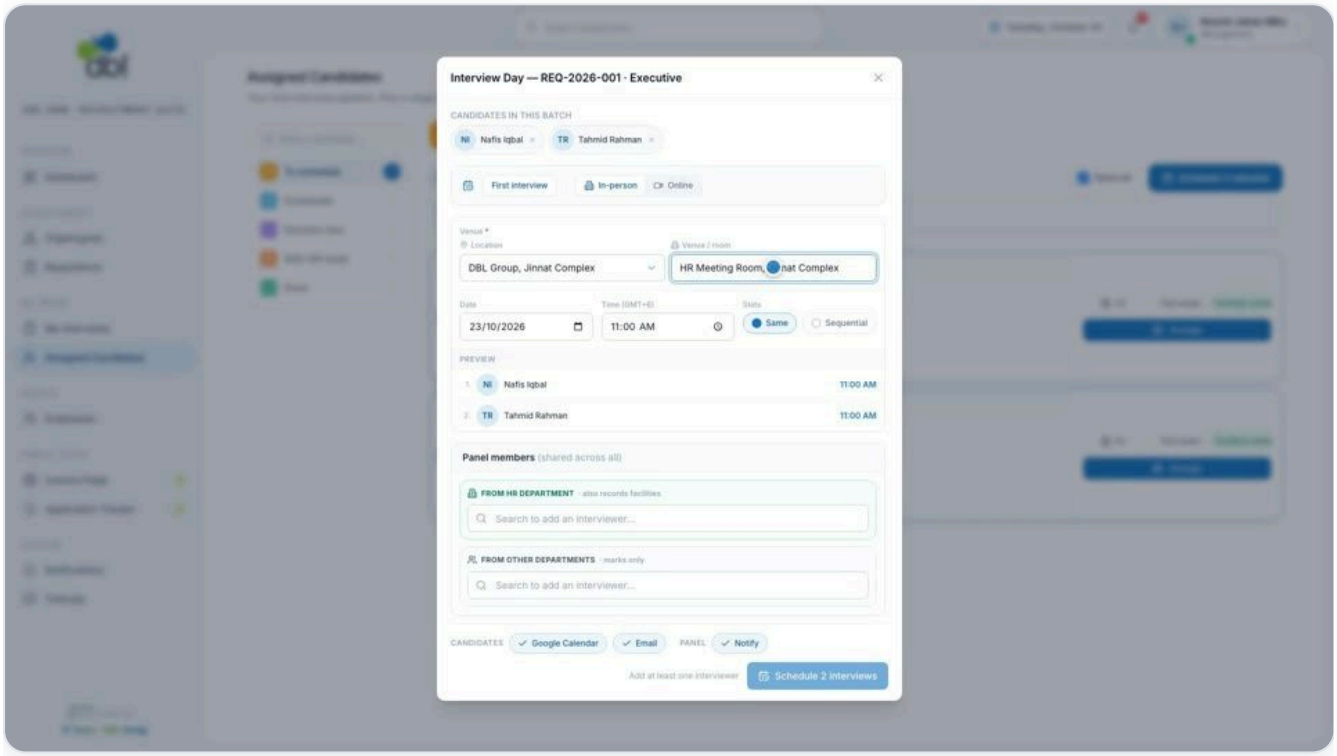

5.3 Scheduling a session

1 **Pick the candidates**
Tick who goes into one session and select **Schedule N selected** — or **Schedule all** with none ticked.

2 **Set the time and place**
Enter the date and time — always **Dhaka time (GMT+6)**. Choose **Online** (a Google Meet link is created) or in person, with the **Location** from the job-location list and the room.

3 **Form the panel**
Add panelists in two groups: **From HR Department** and **From other departments**. HR panelists also see and complete the candidate's facilities on the evaluation form.

4 **Choose who hears**
Under **Candidate**: **Google Calendar** and **Email**. Under **Panel**: **Notify**. Each panelist gets a personal marking link.

1. In-person or Online
2. Location (job-location list) + room
3. From HR Department / From other departments
4. Candidate: Google Calendar · Email — Panel: Notify

Figure 9. The Interview Day form: venue, date and time (Dhaka), the panel in two groups, and who is told.

5.4 On the day

- **Manage** on a scheduled card opens the round: **"Did this interview happen?"** → **Interviewed** or **Did not attend** (**Undo** if you mis-click). **Did not attend** goes once anyone has marked.
- **Reschedule** (in the same drawer) moves the round: the candidate gets the new and old time; panel links stay. Not possible once anyone has marked.
- **Test marks** on the card: enter written / computer marks → **Save all marks**. **Your mark is locked for you**; the recruiter or Head of Talent Acquisition corrects a mistake.
- Panelists mark from their link or My Interviews; you see who has marked and each recommendation.

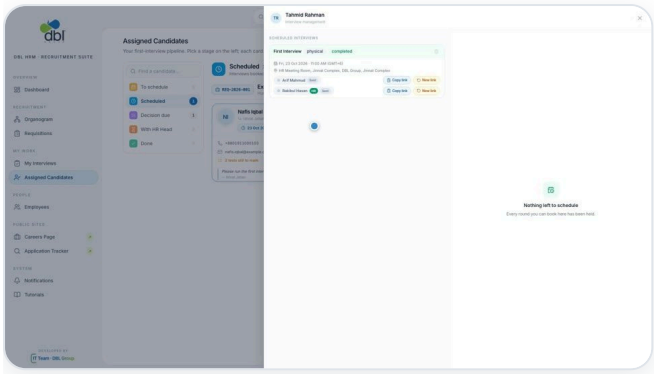

Figure 10. The round in its **Manage** drawer: attendance and Reschedule.

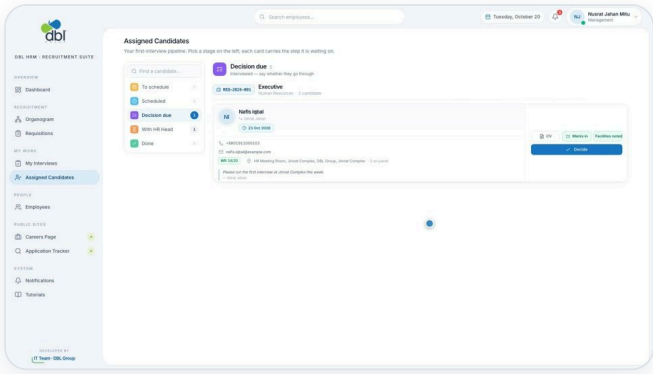

Figure 11. Decision due: Decide → Yes (remarks, Send to HR Head) or No (reason, regret mail).

5.5 Giving your verdict

- **Decision due** → **Decide**. Every test the hand-off asked for must be marked or skipped first.
- **Yes** → remarks (optional) → **Send to HR Head**. With a Factory HR Head the candidate waits under **With HR Head**; without one, straight to **Final**. A batch: **Send finalists to HR Head** — one email, approvable from it.
- **No** → a reason (everyone downstream sees it) → optionally **Also send the regret mail**.
- Returned by the Head? The candidate comes back with the note: resend, or reject.

5.6 Regret letters

A rejected candidate can be sent DBL's standard regret letter. It is never sent automatically and goes only once per candidate. Send it with the rejection, from the candidate's card, or for a whole vacancy with **Regret mail to N** in the **Done** column.

SECTION 6

6 Availability and what you can see

6.1 When you are away: availability and cover

Your availability lives with your account: the dot on your avatar (top right) is green when you are on duty and amber when you are away, and **Availability** in the avatar menu opens the leave panel. Only Factory HR and Corporate Recruiters have it, because only they carry work that someone else must pick up.

1. **Set your leave**
   Choose 3, 7 or 15 days, or pick your last day away, and add a note if useful. Then select **Confirm leave**.

2 **Your queue passes on automatically**
While you are away you drop out of your unit's job-analysis queue: you are not notified, cannot write a job analysis, and waiting ones leave your list. The other Factory HR for the unit carry them; if nobody is available, Head of Talent Acquisition and the Corporate Recruiters do.

3 **Come back**
Leave ends by itself on the date you chose. Back early? Select **I'm back**.

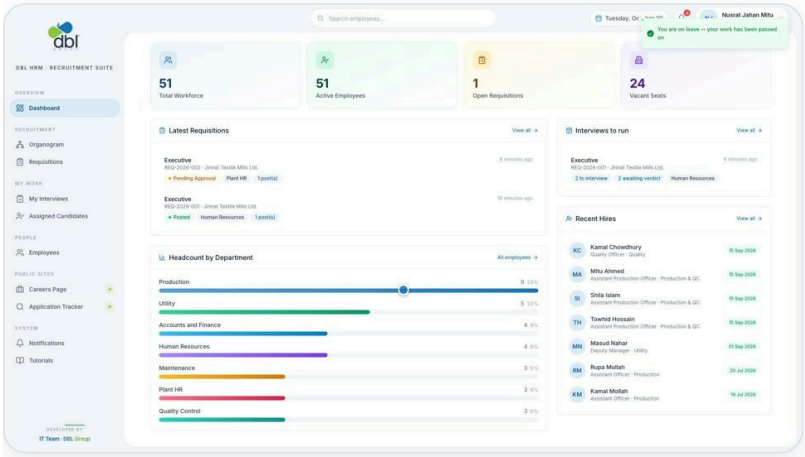

Figure 12. Leave confirmed: the toast, and the amber dot on your avatar.

6.2 What you can see

- Requisitions in your unit waiting for job analysis (while you are on duty), and the ones you completed.
- Posted requisitions in your unit, so that you can send CVs to them — whether or not you are on leave.
- Candidates handed to you for a first interview, and the interviews where you are a panelist.

Holding Factory HR does not show you colleagues' other requisitions in the unit, the recruiter's pipeline, salaries or onboarding.

SECTION 7

7 Notifications

Everything that needs your attention arrives in three ways. The **bell** at the top right shows a count and a list; a new notification also plays a short sound and appears briefly on screen, and open pages refresh themselves — there is no need to reload. If **Email notifications** is on under **Account settings** › **Notifications**, the same notification is emailed to you.

Each morning the system also sends a **reminder** to anyone who has a requisition waiting on their approval or interview marks still to submit.

- A requisition in your unit is waiting for job analysis (and again when a raiser resends one).

- Candidates have been sent to you for a first interview.
- Your Factory HR Head approved, returned or rejected a finalist.
- A panel interview you sit on has been scheduled or rescheduled.

SECTION 8

8 Questions and answers

Q A colleague started the job analysis. Can I finish it?

Yes. Any on-duty Factory HR for the unit may continue it. The panel shows who last worked on it, and the history records the hand-over.

Q I am going on leave. What happens to the job analyses waiting for me?

Set your leave with the availability button. You drop out of the queue and your colleagues carry it; if nobody is available, Head of Talent Acquisition and the Corporate Recruiters do.

Q Why can I not attach a file after submitting?

Attachments belong to what the approvers sign. Ask Head of Talent Acquisition if something must be added later.

Q Why can I not change a test mark I entered?

Marks entered at the factory are fixed for the person who entered them, so that the record shows what the candidate scored. The recruiter or Head of Talent Acquisition can correct a genuine mistake.

SECTION 9

9 Quick reference

A one-page summary you can print and keep beside you.

Factory HR — quick reference

JOB ANALYSIS

- Requisitions → status **Job Analysis** → Job Analysis tab
- **Edit vacancy information** if section A is wrong · **Draft with AI**, edit, attach the JD
- **Save** drafts · **Submit for approval** starts the chain
- **Return to raiser** with a note if it cannot be analysed

SEND CVS

- Posted requisition → **Profile & Posting**
- **Send CVs** → source → drop 1–30 PDFs → check names
- **Send CVs** — they land as Applied for the recruiter

FIRST INTERVIEWS

- My Work → **Assigned Candidates**
- Schedule → **Manage** (Interviewed / Reschedule) → **Test marks** → **Decide**
- Times are Dhaka time (GMT+6)
- **Yes** → HR Head (or Final) · **No** → reason + optional regret mail

AWAY?

- Avatar menu → **Availability**
- 3 / 7 / 15 days or a chosen last day
- **I'm back** to return early
