ROLE GUIDE 01

01

Requisition Raiser

How to raise a manpower requisition and see it through job analysis and approval.

WHO THIS IS FOR

Department and division heads, and anyone nominated to raise manpower requisitions for a unit or factory.

WHAT YOU DO IN TALENTHUB

1

Raise the requisition

Section A — the vacancy — and the facilities the post needs. Two steps, about five minutes.

2

Answer when it comes back

Factory HR or an approver may send it back with a note: correct it and resend.

3

Follow it to the post

Job analysis, the approval chain, then the recruiter — the system tells you at each step.

SECTION 1

1 Your role at a glance

IN SHORT

- A requisition is DBL's paper **Employee Requisition Form**, in the system. You open it: the vacancy (**section A**) and the facilities the post needs.
- Factory HR writes the job analysis (**section B**); then it travels your approval chain, set up for you by Talent Acquisition.
- Once approved, the recruitment team takes over — and the system keeps you informed.

WHAT YOU DO

- Raise requisitions for the units you are nominated for
- Answer questions when a requisition comes back to you
- Follow progress until the post is filled

WHAT YOU DO NOT DO

- Choose your approvers — they are configured for you
- Approve your own requisition
- Run recruitment or see candidates

WHAT STARTS YOUR WORK

Someone leaves a post, or your unit needs additional headcount.

WHO YOU HAND OVER TO

Your unit's **Factory HR** (job analysis), then your **approval chain**, ending with **Head of Talent Acquisition**.

Where you fit in the hiring lifecycle

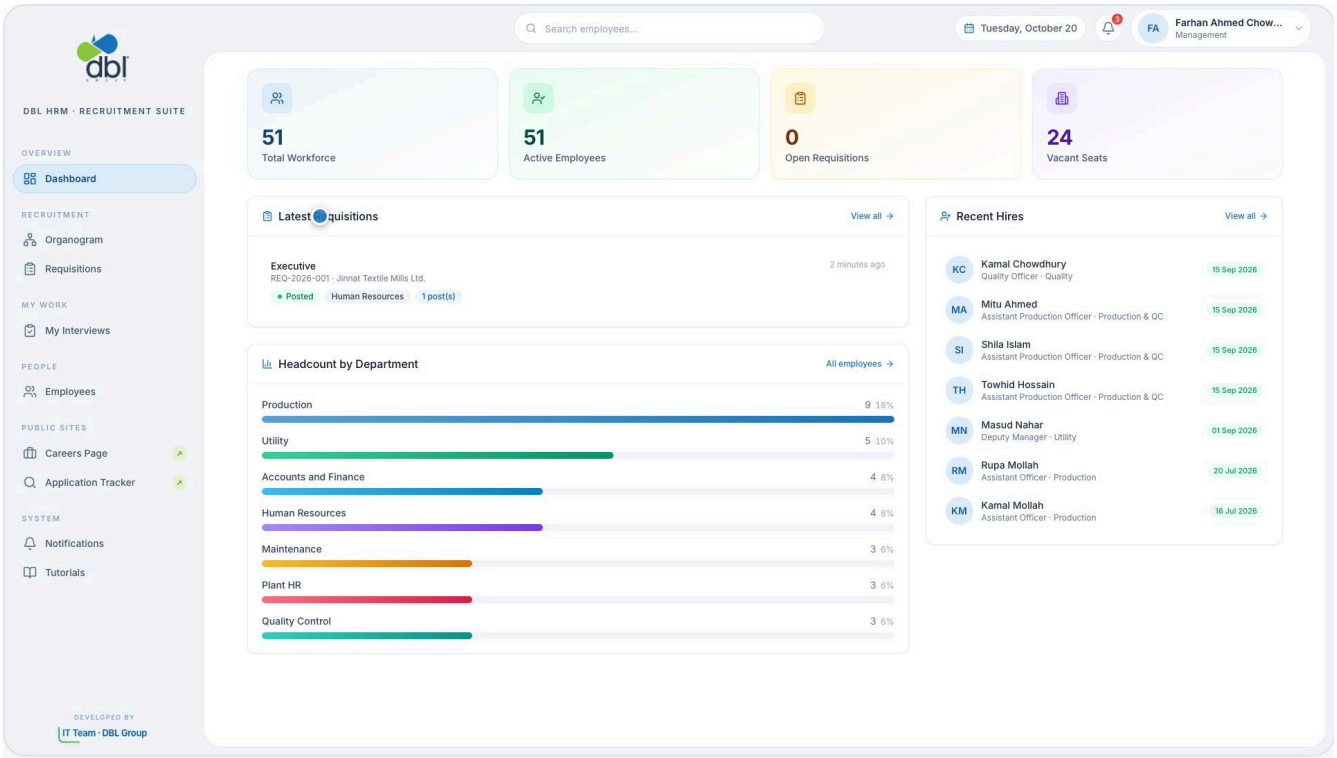

PHASE 1
Manpower Requisition
- **Raise the requisition**
- Job analysis
- Approval chain
- CHRO / Board (if escalated)

PHASE 2
Sourcing & CV Collection
- CV sources & recruiter
- Role profile & job posting
- CVs arrive from all channels
- AI screening & shortlist

PHASE 3
Assessment & Interviews
- Screening tests
- First interview
- Factory HR Head approval
- Second / final interview

PHASE 4
Selection & Salary
- Panel evaluation
- Salary fixation
- Mark as selected
- Regret letters

PHASE 5
Pre-employment & Onboarding
- Documents & facilities
- Medical clearance
- Board approval & offer
- Verification & joining

1 Requisitions — raise and follow

2 Organogram — sanctioned, filled and vacant seats

3 Notifications — every update, with a link

Figure 1. Your Dashboard: the requisitions you raised under **Latest Requisitions**, and the menu on the left.

SECTION 2

2 Access and signing in

2.1 How you get the role

- Head of Talent Acquisition nominates you as a raiser for a unit on **Configuration** › **Approval Paths** and gives you your chain there — that grants the role by itself.
- You can raise only where you hold the role **and** have a chain; otherwise the system refuses and names the unit — contact Head of Talent Acquisition.

2.2 Signing in

1 **Open the system**

Go to **https://talenthub.dbl-group.com** in Chrome, Edge or another current browser, on a computer or a phone.

2 Sign in

Enter your DBL **email address** and password, then **Sign in**. Tick **Remember me** on your own device to keep your email filled in; your browser can save the password.

3 First sign-in or after a reset

Your temporary password is your **employee code**. The system then asks you to choose your own password of 6 to 12 characters before you can continue.

- **Forgot your password?** Select **Forgot password?** on the sign-in page. A 6-digit code is emailed to you; it is valid for 10 minutes. Enter it, then set a new password. Every other session is signed out.
- **Locked out?** After 5 wrong passwords the account is locked for 15 minutes. A super user can also reset your password to your employee code.
- **Two-factor authentication** (recommended) is switched on under **Account settings** › **Security** — use an authenticator app or a code sent by email.
- **Sessions** last 24 hours; after that you sign in again. Signing out on one device does not sign you out anywhere else.

No role, no sign-in

The system lets a person sign in only while they hold at least one role. If you are told your account is not enabled for sign-in, ask Head of Talent Acquisition or a super user to check your access.

2.3 What you will see

Overview **Dashboard**
Your requisitions and anything waiting on you.

Recruitment **Requisitions**
Raise a new requisition and follow the ones you raised.

Recruitment **Organogram**
Sanctioned, filled and vacant seats by unit and department.

People **Employees**
The employee directory, synchronised nightly from ZingHR.

My Work **My Interviews**
Only if you are asked to sit on an interview panel.

System **Notifications**
Everything the system has told you, with links.

SECTION 3

3 Raising a requisition

The form has two steps — Vacancy Information and Facility Requirements. Allow about five minutes.

1. **Open the form**
   Go to **Requisitions** and select **New requisition**. The banner shows **Raising as** with your name and unit.

2. **Placement**
   Unit / Factory is filled in from your nomination; pick **Line of Business**, **Department**, **Section** and **Sub-section** from your unit's organogram.

3. **The position**
   Designation / Job title — add another designation if the post may be filled at more than one level.

4. **Requisition type**
   New for extra headcount; **Replace** when someone left — add each person replaced, with the **Reason for leaving**.

5. **Numbers and timing**
   Nos. of required post; the vacant total is pre-filled from the organogram. Then **Place of posting**, **Vacant date**, **When needed**, **Priority**, and Permanent / Temporary / Contractual.

6. **Facility requirements**
   Next → tick only what the post genuinely needs: **Laptop / Desktop**, **Transport**, **Dormitory**, **Seating**.

7. **Send it**
   Send for job analysis → the requisition gets its code (**REQ-…**), status Job Analysis, and Factory HR is notified.

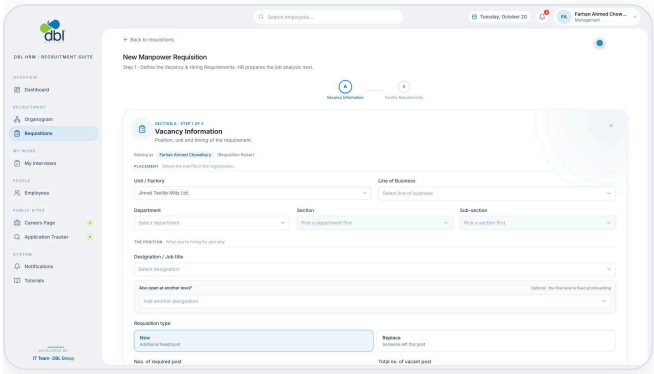

Figure 2. Step 1, Vacancy Information: your name and unit are filled in.

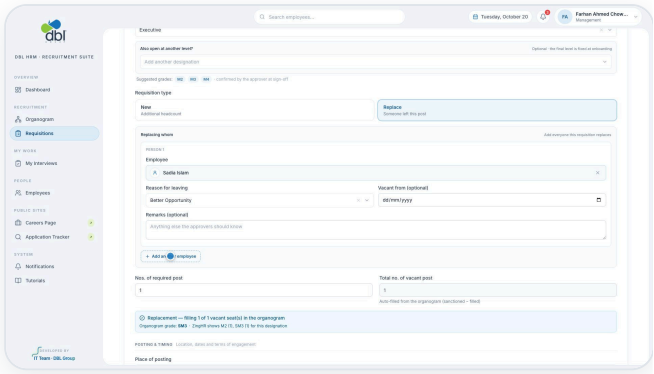

Figure 3. Replace: the person replaced and the reason for leaving.

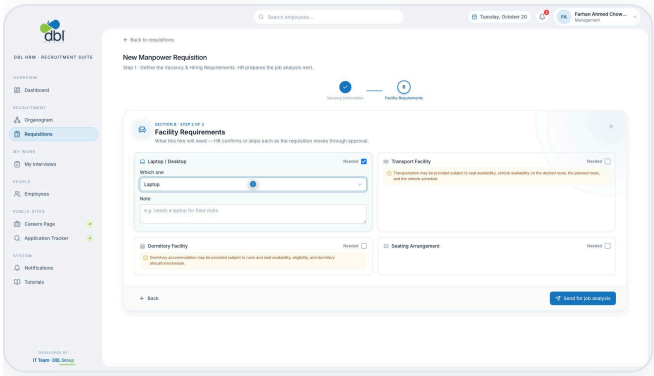

Figure 4. Step 2, Facility Requirements, with the transport and dormitory caveats.

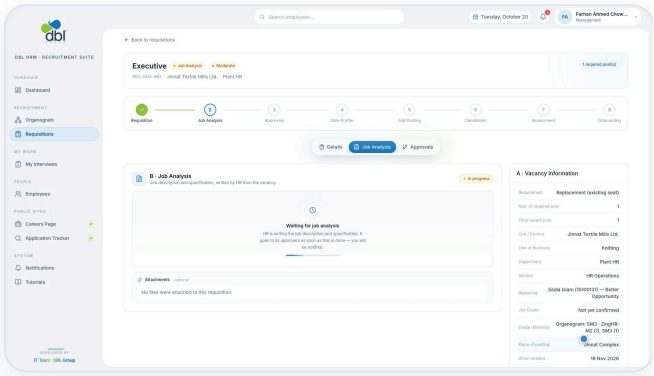

Figure 5. Sent: the code, and status **Job Analysis**.

Transport and dormitory are requests, not promises

Transport may be provided subject to seat availability, vehicle availability on the desired route, the planned route and the vehicle schedule. Dormitory accommodation may be provided subject to room and seat availability, eligibility and allocation. The form shows these conditions before you tick either box, and they travel with the requisition into onboarding.

SECTION 4

4 What happens after you submit

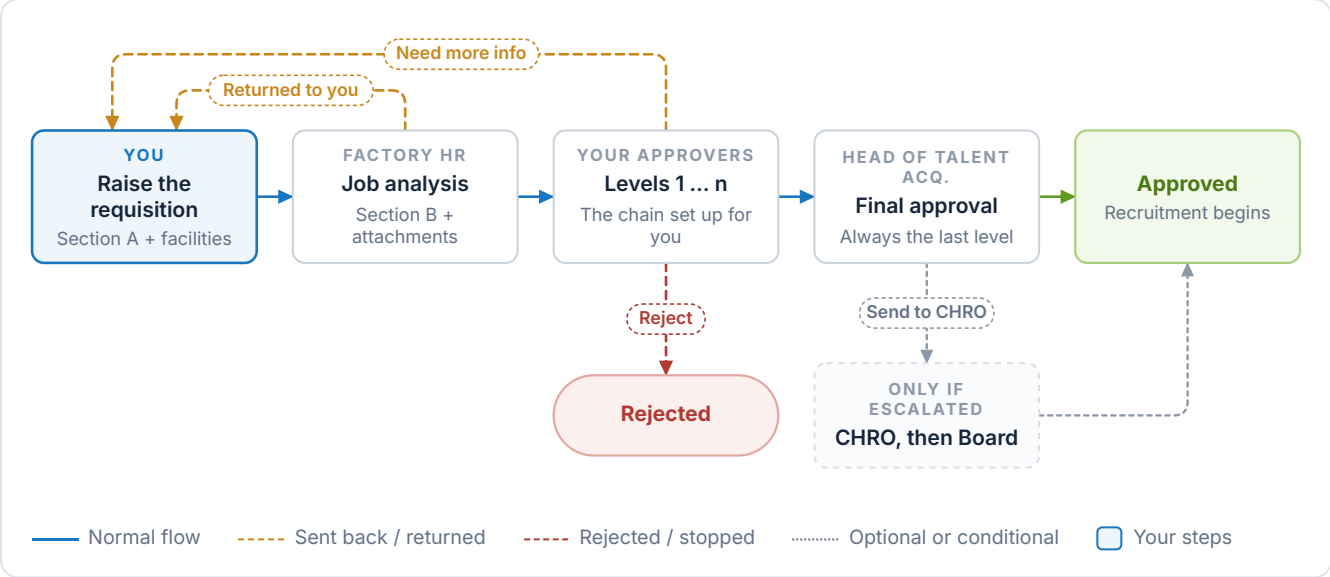

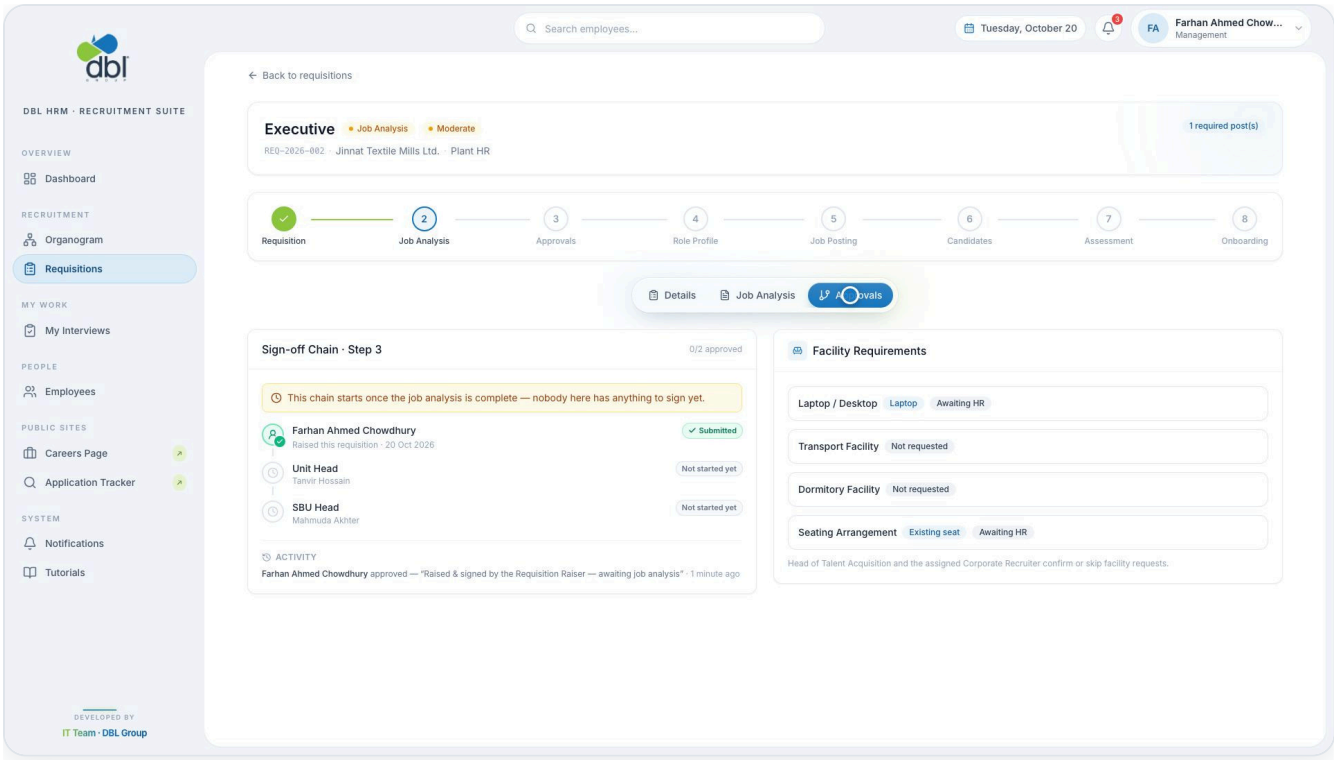

Figure 1. The journey of your requisition. Any approver may reject it; only the final level may escalate it to the CHRO.

4.1 Job analysis by Factory HR

- Your requisition waits first with your unit's Factory HR: they write section B and attach the JD, and may correct section A (every change is logged).
- Their submission starts your chain. No Factory HR available? Head of Talent Acquisition or a Corporate Recruiter does it.

4.2 The approval chain

- A fixed list of named people, level by level, set up for you on Approval Paths. **Head of Talent Acquisition is always the final level.**
- Copied onto the requisition when you raise it — later edits to Approval Paths do not reroute it.
- The **Approvals** tab shows every level, who signed, when, and any remark.

1. Your submission
2. Level 1 — the current step
3. Level 2, then Head of Talent Acquisition

Figure 6. The Approvals tab: the chain, level by level, and whose turn it is.

4.3 Statuses you will see

Status	What it means	Who has it
Job Analysis	Waiting for Factory HR to write section B — or returned to you for changes.	Factory HR, or you
Pending Approval	In the approval chain. The Approvals tab shows the current level.	The named approver
Approved	Every level has signed. Talent Acquisition starts recruitment.	Head of Talent Acquisition
Profile Ready	The role profile for the job advertisement is ready.	Talent Acquisition
Posted	Published on the DBL careers page; CVs are being collected.	Corporate Recruiter
Rejected	An approver turned it down. The reason is on the Approvals tab.	Closed

SECTION 5

5 When a requisition comes back to you

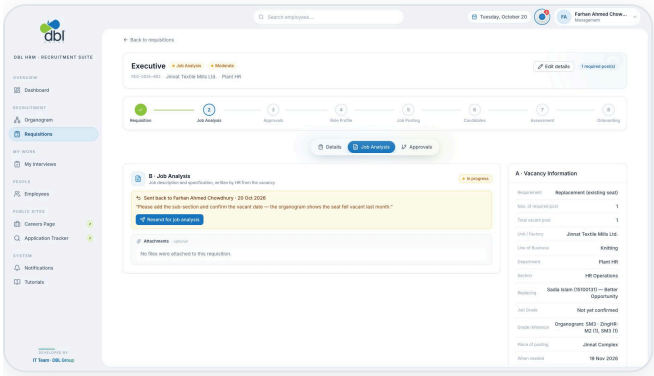

Figure 7. Returned by Factory HR: their note on the Job Analysis tab, and **Resend for job analysis**.

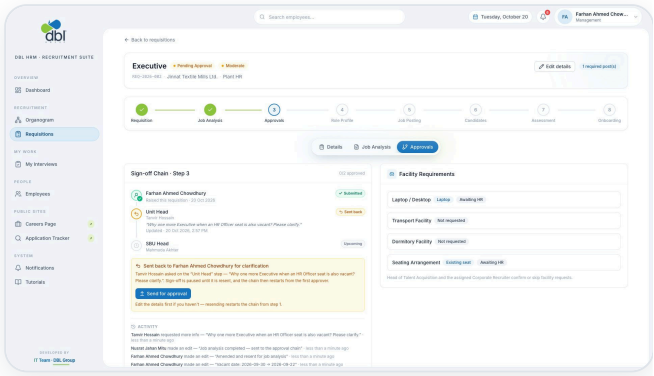

Figure 8. Need more info from an approver: the remark under “Sent back to you for clarification”.

5.1 Returned from job analysis

1 Read the note

You are notified that Factory HR returned the requisition, with their note. The status stays Job Analysis — it is simply parked with you.

2 Correct section A

Open the requisition and select **Edit details**. Change what was asked and save.

3 Send it back

Select **Resend for job analysis**. Factory HR is notified again.

5.2 “Need more info” from an approver

1 Read the question

The approver’s remark is shown on the Approvals tab, under “Sent back to you for clarification”, and in your notification. Sign-off is paused.

2 Edit if needed

Select **Edit details** and make the changes.

3 **Resend**
Select **Send for approval**. **The chain restarts from level 1**, so everyone sees the corrected version.

5.3 Rejected

A rejection is final for that requisition. The approver's reason is shown on the Approvals tab. If the need still exists, raise a new requisition that addresses the reason.

Withdrawing a requisition
There is no withdraw button. If the need disappears, tell the approver currently holding it — they can reject it with a note — or Head of Talent Acquisition. Only the system administrator can delete a requisition.

SECTION 6

6 After approval

- Head of Talent Acquisition chooses the CV sources and assigns a Corporate Recruiter, who owns everything from the role profile to onboarding.
- You are told when it is approved, when the role profile is ready and when the job is posted.
- Candidates stay with the recruitment side; if you are invited to a panel, it appears under My Interviews.

Keep the organogram right
Replacement requisitions are checked against your unit's sanctioned and filled seats. If the organogram is out of date — a seat missing, or filled counts wrong — ask whoever maintains Unit Configuration for your unit to correct it.

SECTION 7

7 Notifications

Everything that needs your attention arrives in three ways. The **bell** at the top right shows a count and a list; a new notification also plays a short sound and appears briefly on screen, and open pages refresh themselves — there is no need to reload. If **Email notifications** is on under **Account settings** › **Notifications**, the same notification is emailed to you.

Each morning the system also sends a **reminder** to anyone who has a requisition waiting on their approval or interview marks still to submit.

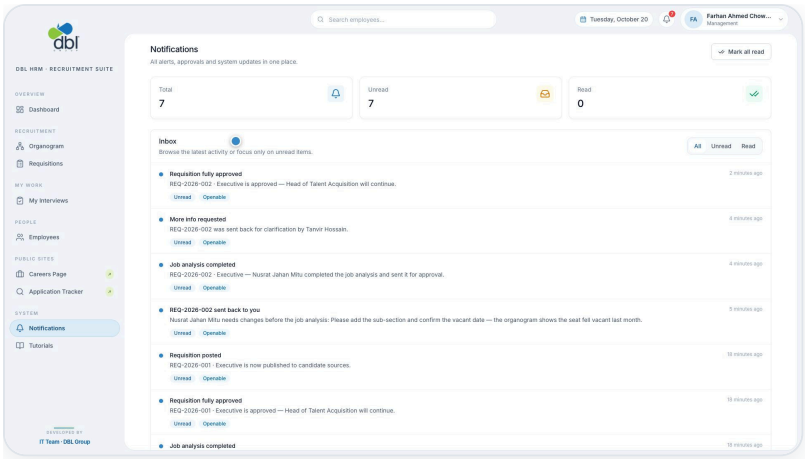

Figure 9. Notifications: every update about your requisitions, each with a link.

You are told when...	Where
Factory HR returns the requisition to you	Bell + email
An approver asks for more information	Bell + email
The requisition is fully approved	Bell + email
The requisition is rejected	Bell + email
The role profile is generated	Bell
The job is posted	Bell

SECTION 8

8 Questions and answers

Q Why can I not see the unit I want in the Unit / Factory list?

You can raise only for units you are nominated for on Approval Paths. Ask Head of Talent Acquisition to nominate you for that unit and set up your chain there.

Q The system says I have no approval path for this unit.

You hold the raiser role but no chain has been saved for you in that unit. Head of Talent Acquisition sets it up on Approval Paths.

Q Can I change who approves my requisition?

No. Approvers are configured per raiser on Approval Paths by Talent Acquisition, the CHRO or a super user. A change applies to requisitions you raise afterwards.

Q Can I see the candidates?

No. Candidates, CVs and interview results are restricted to the recruitment team. You will be told when the requisition is posted.

SECTION 9

9 Quick reference

A one-page summary you can print and keep beside you.

Requisition Raiser — quick reference

RAISE

- **Requisitions → New requisition**
- Vacancy Information → Facility Requirements
- **Send for job analysis**

IF IT COMES BACK

- Returned from job analysis: edit → **Resend for job analysis**
- Need more info: edit → **Send for approval** (restarts at level 1)
- Rejected: final — raise a new one if still needed

FOLLOW PROGRESS

- Requisitions list: status of everything you raised
- Approvals tab: each level, who signed and when
- Bell icon: every update, with a link

NEED HELP?

- Access or chain problems: Head of Talent Acquisition
- Organogram corrections: Unit Configuration owners
- Sign-in problems: IT Department, DBL Group
