ROLE GUIDE 07

07

Corporate Recruiter

Running a requisition's hiring from job posting to the new hire's first day: candidates, tests, interviews, salary fixation and onboarding.

WHO THIS IS FOR

Corporate Recruiters assigned to requisitions by Head of Talent Acquisition.

WHAT YOU DO IN TALENTHUB

1

Publish and collect

Role profile, job posting, CVs from every channel into one pipeline, AI-screened.

2

Assess and interview

Screening tests, hand-offs to the factory, second and final rounds, salary fixation.

3

Onboard

Documents, medical, board approval, the offer, verification and the first day.

SECTION 1

1 Your role at a glance

IN SHORT

When Head of Talent Acquisition assigns you to an approved requisition, you **own its recruitment** from then on: you publish the job, collect and screen CVs, arrange tests and interviews, fix the salary, select the candidate and see them through onboarding to their first day.

You work in the requisition's tabs — Profile & Posting, Recruitment, Assessment, Interviews and Onboarding — and the system tells you what each candidate is waiting on.

WHAT YOU DO

- Role profile and job posting
- Collect, screen and shortlist CVs
- Screening tests and interviews
- Salary fixation and selection
- Onboarding: documents, medical, board approval, offer, joining

WHAT YOU DO NOT DO

- Approve requisitions or choose CV sources
- Schedule medical tests (Head of Talent Acquisition does)
- Build Hiring Approval Sheets (Head of Talent Acquisition does)
- Change a first interview while a factory holds it

WHAT STARTS YOUR WORK

A notification that you have been assigned as recruiter on a requisition.

WHO YOU HAND OVER TO

Factory HR (delegated first interviews), Head of Talent Acquisition (board approval, medical tests), the IT team (the work email, through Notify IT).

Where you fit in the hiring lifecycle

PHASE 1
Manpower Requisition
- Raise the requisition
- Job analysis
- Approval chain
- CHRO / Board (if escalated)

PHASE 2
Sourcing & CV Collection
- CV sources & recruiter
- **Role profile & job posting**
- **CVs arrive from all channels**
- **AI screening & shortlist**

PHASE 3
Assessment & Interviews
- Screening tests
- First interview
- Factory HR Head approval
- **Second / final interview**

PHASE 4
Selection & Salary
- Panel evaluation
- **Salary fixation**
- **Mark as selected**
- Regret letters

PHASE 5
Pre-employment & Onboarding
- **Documents & facilities**
- Medical clearance
- Board approval & offer
- **Verification & joining**

SECTION 2

2 Access and signing in

2.1 How you get access

The Corporate Recruiter role is granted by a super user on Access Control. It does not by itself show you any requisition: you see a requisition once Head of Talent Acquisition **assigns you** to it, or while you are **covering** for a colleague on leave. Assignment is additive — Head of Talent Acquisition and the CHRO keep their access, so the requisition gains an owner without anyone being locked out.

2.2 Signing in

1. **Open the system**
   Go to **https://talenthub.dbl-group.com** in Chrome, Edge or another current browser, on a computer or a phone.

2. **Sign in**
   Enter your DBL **email address** and password, then **Sign in**. Tick **Remember me** on your own device to keep your email filled in; your browser can save the password.

3. **First sign-in or after a reset**
   Your temporary password is your **employee code**. The system then asks you to choose your own password of 6 to 12 characters before you can continue.

- **Forgot your password?** Select **Forgot password?** on the sign-in page. A 6-digit code is emailed to you; it is valid for 10 minutes. Enter it, then set a new password. Every other session is signed out.
- **Locked out?** After 5 wrong passwords the account is locked for 15 minutes. A super user can also reset your password to your employee code.
- **Two-factor authentication** (recommended) is switched on under **Account settings** › **Security** — use an authenticator app or a code sent by email.
- **Sessions** last 24 hours; after that you sign in again. Signing out on one device does not sign you out anywhere else.

> **No role, no sign-in**
> The system lets a person sign in only while they hold at least one role. If you are told your account is not enabled for sign-in, ask Head of Talent Acquisition or a super user to check your access.

2.3 What you will see

Overview **Dashboard**
Recruitment you're running — each of your requisitions and what it is waiting on.

Recruitment **Requisitions**
Your requisitions; open one to work in its tabs.

Recruitment **Candidates**
Every requisition you recruit for, with its pipeline.

Recruitment **Talent Bank**
Past finalists kept for future roles.

My Work **My Interviews**
Interviews where you sit on the panel.

Header **Availability button**
Set leave and name a stand-in for each requisition.

SECTION 3

3 Publishing the job

Profile & Posting tab. Head of Talent Acquisition has already chosen the CV sources and assigned you.

---

1 **Role profile**
With no profile saved, the tab shows one drafted from Factory HR's job analysis. **Use this profile** saves it as it is; **Regenerate** asks the AI for a fresh one; **Write manually** lets you type it; edit any version and **Save profile**. The status becomes Profile Ready.

2 **Publish**
Set the **closing date** and select **Publish job posting**. The job is listed on the DBL careers page, the status becomes Posted, and a Google Drive workspace is created with folders for all CVs, shortlisted, interview documents, final candidates and joining documents.

3 **Spread the word**
Share job link copies the public application link; **Social post** copies a ready-made post for Facebook or LinkedIn. On the Recruitment tab, **Post to BDJobs** publishes the vacancy on BDJobs when BDJobs posting is enabled; the button then reads **Live in BDJobs**.

SECTION 4

4 Collecting CVs

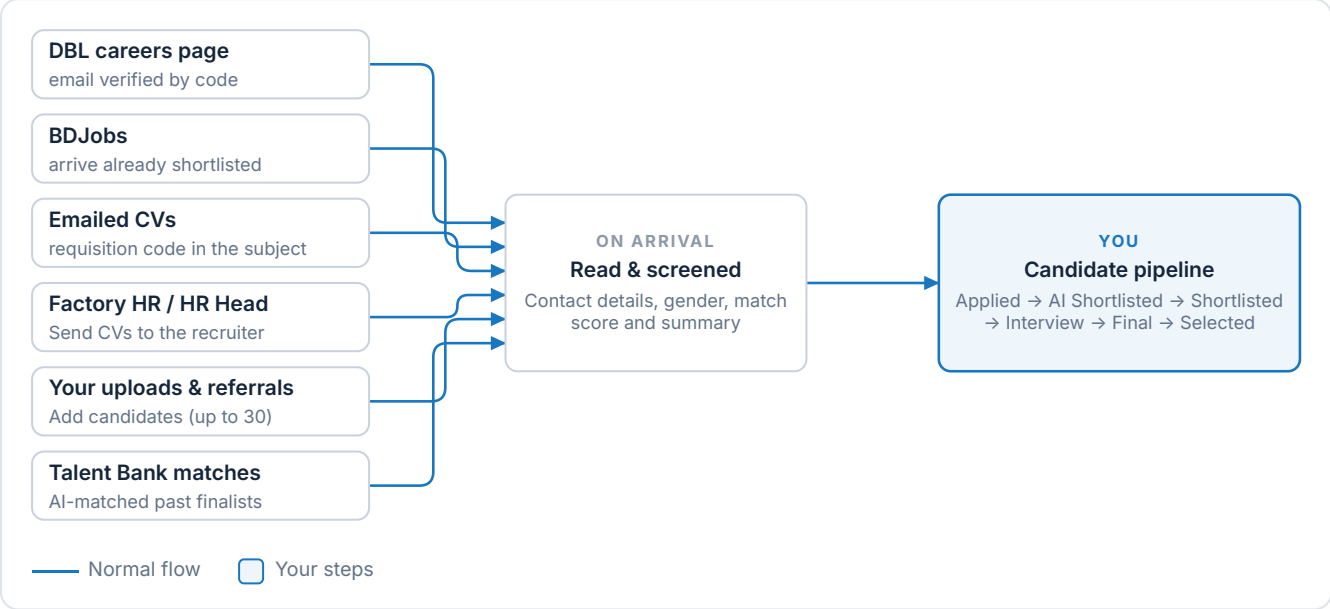

Figure 1. Every channel feeds the same pipeline. Each CV is read and screened on arrival.

Channel	How it works
DBL careers page	Applicants apply online with their CV. They prove their email address with a 6-digit code, receive an application ID (**APP-year-number**) and a confirmation email, and can track their status.
BDJobs	BDJobs sends its own shortlisted applicants into the pipeline; they arrive at Shortlisted. **BDJobs CV** opens their application as a PDF in a new tab, laid out like BDJobs' own CV; when the applicant also attached a CV of their own, **Personal CV** opens that beside it. Only your candidate row shows both; everywhere else — Factory HR, the interview panel, approval sheets — shows one, the Personal CV first.
Emailed CVs	CVs emailed to the recruitment mailbox with the requisition code (REQ-...) in the subject are picked up every 15 minutes and added to that requisition.
Factory HR / HR Head	They send CVs collected locally; these arrive as Applied, marked with the sender's name.
Your uploads	**Add candidates**: drop one PDF or up to 30. The source is required; Employee Referral asks for the referring employee. **No CV yet?** Add a candidate by name, with notes.
Employee referrals	Each referral gets a reference (**REF-year-number**). Once the CVs have been read, each referred candidate with an email address and the referrer are sent a letter.
Talent Bank	Finalists from earlier requisitions are matched to yours by AI. **Talent Bank (N)** on the toolbar lists them; add any to the pipeline.

What happens to every CV

On arrival each CV is read: a missing email address or mobile number is filled in and the candidate's gender is recorded. The AI screen scores it against the role profile and writes a one-line summary — automatically if **Auto-screen new CVs** is on, otherwise when you select **AI Screen**. **Applied N×** shows how many times the same person (same email or mobile number) has applied before.

SECTION 5

5 Working the pipeline

Recruitment tab.

5.1 Stages

Stage	Meaning
Applied	The CV has arrived from any channel and is in the pipeline.
AI Shortlisted	The AI screen scored the CV at or above the match threshold. A suggestion for the recruiter, not a decision.
Shortlisted	The recruiter has shortlisted the candidate. BDJobs applicants arrive here, already shortlisted by BDJobs.
Interview	An interview has been arranged — by the recruiter, or by the factory colleague the first interview was handed to.
Final	Through the first interview; ready for the second or final round with the recruiter.
Selected	Chosen for the post, with a finalized salary. Onboarding starts here.
Rejected	Not taken forward. A regret letter can be sent — never automatically.

5.2 The candidate card

Each candidate is a card: name, gender, **Applied N×**, a CV headline (latest title · company · years), the source, and the AI's one-line summary. On the right is the **match score** and the stage control. **Why N?** opens the match detail: every criterion of the role profile marked **Met**, **Partly met** or **Gap**.

Moving a candidate to another stage also moves their CV to the matching Drive folder. Actions on the card always offer the next step first.

5.3 Tools on the toolbar

Tool	Use it to
AI Screen	Score CVs that have no match score yet, including BDJobs applications. When a BDJobs applicant has both a BDJobs CV and a Personal CV, the AI reads both and writes one common summary.
Bulk Reject	Reject everyone below a chosen match score, optionally sending the regret letter.
AI Compare	Compare interview, final and selected candidates side by side.
Talent Bank (N)	Review AI-matched past finalists and add them to this pipeline.
Schedule Interview Day	Book interviews for several candidates in one go.
Pipeline tools	Sync from Drive (pick up CVs dropped into the Drive folder) and Export to Excel.

Search finds a candidate by name or application ID. Email a candidate from their card using a ready template (interview, documents, offer, regret).

SECTION 6

6 Screening tests

Assessment tab — before or alongside the first interview.

Three tests can be assigned per candidate: a **Written test**, a **Computer literacy** test and the online **AI proficiency** test. Each candidate is listed under **Needs tests assigned**, **Pending** or **Cleared**. Pass marks for each test are set in AI Settings.

1. **Assign**
   Switch on the tests that apply and set the total marks. Tests can also travel with a hand-off to a factory.

2. **AI proficiency test**
   Assign AI Proficiency Test: choose the number of questions and an optional time limit; questions are drawn at random from the bank for the post's job grade. **Email each candidate their test link**. The candidate takes it full-screen; leaving the tab or full-screen is recorded and you are told. The test is marked automatically.

3. **Written and computer marks**
   Type the marks obtained against the total. A mark above the total, a total of zero or a negative mark is refused.

Tests must be settled before a verdict
A candidate cannot be put through a first interview while an assigned test has no mark. Mark it, or switch it off for that candidate.

SECTION 7

7 Interviews

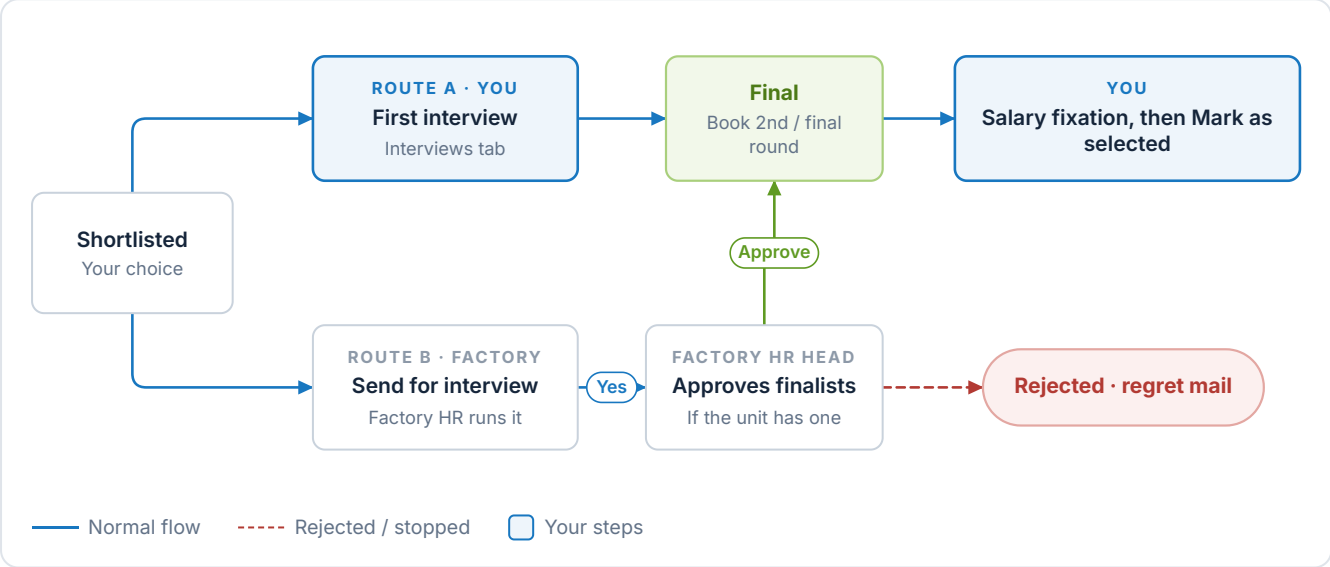

Figure 2. Two routes to the final round. While a factory holds a candidate, you see everything but cannot change it.

7.1 Handing a first interview to a factory

Select shortlisted candidates and choose **Send for interview**. Search the directory for the people who will run it — usually the unit's Factory HR. Optionally switch on tests (with total marks) and add a note. The people you pick are notified, gain access to those candidates only, and receive sign-in rights if they had none.

Until they give their verdict, the round is theirs: on your Interviews tab and in the interview drawer you see the time, venue, panel and who has marked, but the controls are hidden. To take the work back, withdraw the hand-off — it is recorded. Finalists approved by the factory (and their Factory HR Head, where the unit has one) come back to you at **Final**; their first round stays view-only.

7.2 Scheduling

The Interviews tab lists Interview and Final candidates, split into **Ready** (yours to schedule) and **Other** (still with a factory).

1. **Choose the round**
   Schedule interview offers the next round — First, Second or Final. **Schedule all at once** books several candidates together.

2 Time and place

Times are always **Dhaka time (GMT+6)**. Online creates a Google Meet link; in person needs the Location (from the job-location list) and the room.

3 Panel

Add panelists **From HR Department** and **From other departments**. Each gets a personal marking link; **Copy link** or **New link** if one goes astray, and **Add interviewer** later if needed.

4 Who hears

Candidate: **Google Calendar** invite and/or **Email**. **Panel**: **Notify**. With the Settings master email switch off, calendar events are still created but nobody is invited.

7.3 On the day and after

- Record attendance: **Interviewed** or **Did not attend**. **Reschedule** moves a round until someone has marked; the candidate is told the new and old time, panelists keep their links and the calendar moves.
- Panelists score ten fixed criteria (50 marks) and must give a recommendation — Select, Reject or Talent Pool. Recommendations are advice; you decide. The **AI Evaluation Summary** condenses the panel's comments.
- A daily reminder chases panelists who have not submitted marks.

The ten criteria

Criterion	Marks	The four answers offered
Education (related to the role)	8	Required, partly related · Required, related · Above required, partly related · Above required, related
Experience	8	Same four answers as Education
Training	4	Basic · Relevant · Adequate relevant · Abroad relevant
IT knowledge	4	Basic · Work perform · Intermediate · Expert
Leadership	4	Low · Moderate · High · Very high
Attitude & approach	4	Average · Fair · Good · Excellent
Presentation skill (includes written-test weight)	8	Average · Fair · Good · Excellent
Discretion on decision making	4	Rarely effective · Somehow effective · Effective · Highly effective
Position scarcity	4	Available · Partially available · Occasionally available · Rarely available
Complexity of work	2	Undemanding · Quiet · Complicated · Challenging

Criterion	Marks	The four answers offered
Total	**50**	Plus a required recommendation: **Select**, **Reject** or **Talent Pool**

SECTION 8

8 Salary fixation and selection

Open **Salary** (or **Fix salary**) on a finalist. Changes save as you go; the left pane shows the proposed gross salary and progress, the right pane the working.

Part	What it holds
Job grade	The post's grade, which sets the salary range.
Screening	Written, computer literacy and AI proficiency results against their pass marks. A failed screening blocks finalizing.
Committee score	The panel's average across the ten criteria, out of 50.
Salary band	The score places the candidate on one of 11 bands within the grade's range.
Negotiation	Present salary, what the candidate asked for and their current benefits.
Proposed gross salary	Filled from the band (Auto) and adjustable after negotiation.

Finalize fixes the salary. Any later change reopens it, and **Finalize again** is needed.

> **Selection needs a finalized salary**
> **Mark as selected** is refused until the salary is finalized — the board signs off on that figure. The selection dialog offers **Fix salary** if it is missing. Onboarding begins from here; once it starts, the candidate leaves the Talent Bank.

To reject instead, choose **Reject**: give the reason and, if you wish, tick **Also send the regret mail**.

SECTION 9

9 Onboarding

From selection to the first day. Open a selected candidate with Onboard; the workspace walks through six steps.

Step	What happens	Opens when
1 · Documents	The candidate uploads joining documents on their portal; HR verifies each one (or records that originals were checked by hand).	Onboarding starts
2 · Facility requirements	HR reviews the facilities the post was approved for and selects Mark as Reviewed.	Onboarding starts
3 · Medical clearance	Recruiter requests the test; Head of Talent Acquisition schedules it; Medical Officer examines; Central Medical Officer confirms.	Documents verified and facilities reviewed
4 · Board approval	The candidate goes on a Hiring Approval Sheet: Head of Talent Acquisition → CHRO → Board.	Medical clearance confirmed
5 · Offer letter & facility provisioning	The offer goes out on the DBL pad; the candidate accepts or declines online; each facility is passed to the team that arranges it.	Board approval
6 · Final verification & completion	Placement (employee ID, line manager), Code of Conduct, final verification, appointment letter, then **Notify IT**: IT creates the work email and confirms from a link — and the hire is onboarded.	Offer accepted

9.1 What you do at each step

Step	Your actions
1 · Documents	**Start onboarding**, then send the candidate their **Onboarding Portal** link (email it, or copy it). Verify each upload, or reject it with a reason. Originals checked in person can be recorded by hand.
2 · Facilities	Review what the post was approved for and select **Mark as Reviewed** — even when the hire is entitled to nothing.
3 · Medical	**Request medical test**: test list (below 40 / 40 and above), salutation, reference number. Head of Talent Acquisition schedules and sends it; the medical officers record and confirm the result.
4 · Board approval	**Send for Board Approval**. The candidate goes to Head of Talent Acquisition's Approval Sheets; you follow progress here.

Step	Your actions
5 · Offer & provisioning	Choose the letter (Junior / Mid or Senior), the signing CHRO and the tentative joining date; preview and send. The candidate accepts (signed with their own signature) or declines with a reason. Pass each facility to the person who arranges it — they confirm from an emailed link.
6 · Final verification	Placement (employee ID and line manager), Code of Conduct (sent to the candidate to sign), reference checks, then **Final verification**. Send the appointment letter, then **Notify IT** (9.3) — and the hire is **Onboarded** once IT confirms.

9.2 Final verification

The final check refuses while anything required is outstanding, and names it: every required document collected and verified, medical cleared, at least one reference check, and all four NID particulars (name, address, date of birth, number) typed by the candidate exactly as printed. **Notify candidate** emails them the outstanding list. Where originals were checked in person, HR can waive the check with **Checked by Manual on hand**.

Reference checks are one form per referee, filled in by you with your e-signature — or recorded as done on paper.

9.3 Notify IT — the work email

1. **Open Notify IT**
   At the foot of the last step, select **Notify IT**. The dialog shows the form beside the email exactly as IT will receive it.

2. **Fill it in**
   The preferred email address (leave it blank and IT chooses), the email platform and the purpose.

3. **Add on CC (optional)**
   Nobody is on CC unless you choose to add them. To let a colleague see the request, select **Add from employee directory** and search by name, code or designation; their address comes from the directory and shows in the preview. Remove anyone with the ×, or skip this altogether.

4. **Leaver's email**
   For a replacement, the people this hire replaces are listed with their email from the directory — switch on those whose account IT should delete. A transfer is left off, being still with the group.

5. **Send to IT**
   Send to IT: the request goes in DBL's usual format to the IT address set on Integrations, with only the people you added on CC. If IT answers by email, it comes to you. The step shows **Waiting for IT**; **Send again** issues a fresh link if one is lost.

6 **IT confirms**
IT opens the link in the email, enters the address they created and which accounts they deleted, and signs with their name. The work email is recorded, the hire is **Onboarded**, and you receive IT's "completed" reply in the same email thread — as does everyone you added on CC.

If IT gives you the address another way, use **Already have the address? Record it by hand**. Recording it closes the open request, so its link tells IT nothing more is needed.

Print-outs
Print full record produces the complete hiring file, from the requisition and its approval chain to the history.
Print 1-page summary gives the one-sheet employee summary on the DBL pad.

SECTION 10

10 Regret letters, Talent Bank and leave

10.1 Regret letters

A rejected candidate can be sent DBL's standard regret letter — "Dear ", the post named, a link to the careers page. It is **opt-in, never automatic, and sent once only**. Send it with a rejection, from a rejected card, or in bulk from the pipeline's selection bar.

10.2 Talent Bank

Every candidate who reaches Final or Selected is kept in the Talent Bank automatically, and leaves it when their onboarding starts. When a requisition is approved or posted, the bank is matched against it and suggestions appear on the pipeline.

10.3 When you are away: availability and cover

Your availability lives with your account: the dot on your avatar (top right) is green when you are on duty and amber when you are away, and **Availability** in the avatar menu opens the leave panel. Only Factory HR and Corporate Recruiters have it, because only they carry work that someone else must pick up.

1 **Set your leave**
Choose 3, 7 or 15 days, or pick your last day away, and add a note if useful. Then select **Confirm leave**.

2 **Nominate a stand-in for each requisition**
The panel lists the requisitions you are recruiting for and asks who covers each one. Your stand-in gains access alongside you — you keep yours — and the cover lapses by itself when your leave ends.

3 **Come back**
Leave ends by itself on the date you chose. Back early? Select **I'm back**.

SECTION 11

11 Notifications

Everything that needs your attention arrives in three ways. The **bell** at the top right shows a count and a list; a new notification also plays a short sound and appears briefly on screen, and open pages refresh themselves — there is no need to reload. If **Email notifications** is on under **Account settings** › **Notifications**, the same notification is emailed to you.

Each morning the system also sends a **reminder** to anyone who has a requisition waiting on their approval or interview marks still to submit.

- You have been assigned as recruiter on a requisition.
- Factory HR sent CVs in; a candidate left the AI proficiency test window ("Candidate left the screening test").
- A factory gave its verdict on a first interview, or the Factory HR Head approved finalists — book the second interview.
- A sheet with your candidate was approved or returned; a medical result was confirmed ("Medical cleared" or otherwise).
- A candidate accepted or declined the offer; a facility was arranged or declined.
- IT created the work email ("Work email created") — the onboarding is complete.

SECTION 12

12 Questions and answers

Q **Why can I not mark a candidate as selected?**
The salary is not finalized. Open Fix salary, complete it and select Finalize.

Q **I cannot change an interview on the Interviews tab.**
The candidate is with a factory for their first interview. Wait for their verdict, or withdraw the hand-off to take it back.

Q Why is a BDJobs applicant already Shortlisted?

BDJobs sends only its own shortlist, so those applicants start at Shortlisted.

Q The panel says a marking link does not work.

Use New link on the round to issue a fresh one, or Copy link to send it again.

Q The candidate did not receive the onboarding email.

Copy the portal link from the onboarding page and send it directly. Check that the candidate’s email address is correct.

SECTION 13

13 Quick reference

A one-page summary you can print and keep beside you.

Corporate Recruiter — quick reference

PUBLISH

- Profile & Posting → **Use this profile** / Save profile
- Closing date → **Publish job posting**
- Share job link · Social post · Post to BDJobs

PIPELINE

- Applied → Shortlisted → Interview → Final → Selected
- AI Screen · Bulk Reject · AI Compare · Talent Bank
- **Send for interview** hands first rounds to a factory

INTERVIEWS & SALARY

- Times in Dhaka time (GMT+6)
- Panel: HR / other departments · candidate invite & email
- **Fix salary** → Finalize → **Mark as selected**

ONBOARDING

- Documents → Facilities → Medical → Board → Offer → Final
- Request medical test · Send for Board Approval
- Final verification → appointment letter → **Notify IT** → Onboarded
